UPSIDE cultivated chicken
cooking and handling instructions.

How to cook and handle UPSIDE chicken

PEA FIBER

A digestive superfood that enhances our cultivated chicken with prebiotic benefits and source of essential dietary fiber.

CULTIVATED CHICKEN
Real chicken

If it cooks like chicken and tastes like chicken...
What's different about UPSIDE chicken?

UPSIDE chicken brings together the best of chicken and then supercharges it with plants. The result is meaty, juicy, freshly cultivated chicken that's made right-right from the start.

AVOCADO OIL

A wholesome oil extracted from avocados, rich in monounsaturated fatty acids

SOY PROTEIN ISOLATE
Most complete plant-based protein, with all 9 essential amino acids

Ingredients

Quick cooking instructions

- 01**
Heat saute pan with 1 tbsp oil on medium high.
- 02**
Add UPSIDE chicken to the pan in an even layer. The chicken likes space to brown, so don't crowd the pan.
- 03**
Cook for approximately 4 minutes covered, allowing one side of the strips to reach a golden brown.
- 04**
Flip the pieces and cook for another 2 minutes with the cover down to get some browning on the other side.
- 05**
UPSIDE chicken is fully cooked when the internal temperature reaches 165°F / 74°C.

Usage instructions

UPSIDE chicken works in any recipe that calls for chicken. Bake it, stew it, stir-fry it, sauté it, deep-fry it. It's incredibly versatile and always delicious.

- + UPSIDE chicken is a raw product.
- + UPSIDE chicken is fully cooked when the internal temperature reaches 165°F / 74°C.
- + Use in any chicken recipe.

Storage & handling tips

- + UPSIDE chicken is perishable and raw (uncooked).
- + Always keep frozen or refrigerated and cook before the use-by date.
- + Shelf life is 365 days frozen, 7 days unopened and thawed.
- + To thaw, simply move the package from the freezer to the refrigerator about 24 hours before you intend to cook it.
- + Thawing at room temperature or by immersing in water is NOT recommended.
- + Once thawed, do not refreeze.
- + As with any raw product, wash your hands before and after handling.
